

I can complete calculations.

$6 \times 5 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$6 \times 1 = \underline{\quad}$

$6 \times 0 = \underline{\quad}$

$6 \times 10 = \underline{\quad}$

$6 \times 0 = \underline{\quad}$

$2 \times 6 = \underline{\quad}$

$6 \times 6 = \underline{\quad}$

$4 \times 6 = \underline{\quad}$

$6 \times 11 = \underline{\quad}$

$6 \times 9 = \underline{\quad}$

$6 \times 8 = \underline{\quad}$

$12 \times 6 = \underline{\quad}$

$0 \times 6 = \underline{\quad}$

$1 \times 6 = \underline{\quad}$

$6 \times 1 = \underline{\quad}$

$6 \times 5 = \underline{\quad}$

$8 \times 6 = \underline{\quad}$

$4 \times 6 = \underline{\quad}$

$6 \times 5 = \underline{\quad}$

$6 \times 3 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$0 \times 6 = \underline{\quad}$

$6 \times 6 = \underline{\quad}$

$6 \times 2 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$6 \times 4 = \underline{\quad}$

$6 \times 10 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$6 \times 2 = \underline{\quad}$

$6 \times 5 = \underline{\quad}$
