

# A Letter Home

Imagine you have been living on the ISS for three months. You're halfway there in your six-month adventure. You are going to write a letter home to a loved one. This could be your mum or dad, a brother, a sister or any other special relative or friend. You could even imagine you have a husband or wife or even your own children to write to.

## Try to include:

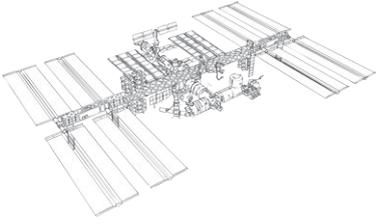

- what you do on the ISS;
- how you are feeling;
- what you are thinking;
- what you want to do when you get home;
- some questions for the reader to reply to.

## Did you remember to...

- write the sender's address?
- write the date?
- write an appropriate greeting?
- write an introduction?
- write in paragraphs around a theme?
- use first person?
- use a chatty, informal style?
- write a conclusion?
- add an appropriate closing to the letter and finish with the sender's name or signature?
