

Multiplication challenge

Can you work out the value of each Welsh flag?

Use 2x, 3x, 5x, 10x tables

$$2 \times \text{Welsh flag} = 20$$

$$\text{Welsh flag} \times 6 = 12$$

$$7 \times \text{Welsh flag} = 35$$

$$10 \times \text{Welsh flag} = 70$$

$$\text{Welsh flag} \times 4 = 12$$

$$3 \times \text{Welsh flag} = 30$$

$$7 \times \text{Welsh flag} = 21$$

$$\text{Welsh flag} \times 9 = 45$$

Why not make up some of your own sums for me to work out!
